

APADA's 30th Anniversary

In January 1992, the Argentine Professional Flight Dispatchers Associations was created in Buenos Aires Argentine. The mission was and is to preserve and maintain the high standards of the Flight Dispatch Profession and support the Argentina Flight Dispatcher License at the highest level of safety.

A professional Flight Dispatcher's license supports the highest level of safety in the flight dispatch profession as well as ensuring the economical and profitable operation of civil airline flight operations meeting or exceeding operational safety regulations. The Dispatchers of APADA are proud of having met those objectives. We encourage all Dispatchers worldwide to meet or exceed our efforts in this noble task.

Flight Dispatchers in Argentina are highly affected by the new COVID strain. Local Argentinian airlines have 1200 infected employees which have caused many cancellations and delays. That notwithstanding, we have planned a gala luncheon Sunday, January 23 to celebrate our 30th anniversary. If we can make this happen in spite of COVID restrictions, we will gather and enjoy our friendship and professional collaboration. We will certainly take many photos and share them with our IFALDA colleagues in the next edition of IFALDA's Flight Dispatcher's World.,

Marcelo Sana
IFALDA Director – South America
